Dear Mr. Mueller:

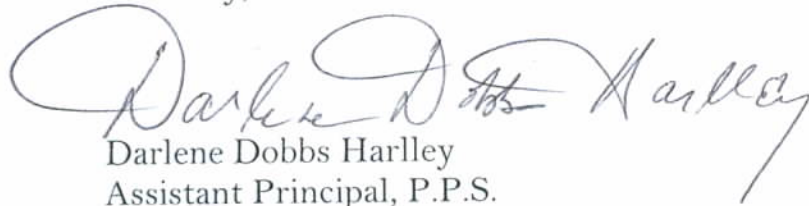

I apologize for taking so long to send this letter.

It was a pleasure having your group perform for our students on February 26, 2009. The students and staff were quite pleased with the performance. Many of the students visited their counselors following the performance, as they had concerns regarding their behavior. In fact, one young lady requested information about where she could go for HIV testing.

We need to continue providing performances such as "Pride Not Prejudice", so that students are made aware of the devastating effects of sexually transmitted diseases. As well, they need to learn how to make appropriate decisions regarding their sexual behavior.

Again, thanks for sharing such invaluable information with our students. We look forward to working with you in the near future.

Sincerely,

A handwritten signature in black ink that reads "Darlene Dobbs Harlley". The signature is written in a cursive, flowing style with large loops.
