To Whom It May Concern:

On March 25th Pride Not Prejudice performed to 100 of our sophomore students. The group engaged our students by providing them with information on HIV/AIDS, as well as through the personal account of Mr. Mueller's experience, and the performance of the actors of Pride Not Prejudice.

It was a candid performance that allowed our students to see how lives are affected by the volatile concoction of drugs, sex and poor decision making. Our students were then given the opportunity to ask questions at the end of the performance. We are grateful that Pride Not Prejudice was able to give our students a meaningful way in which to learn about HIV/AIDS. If there are any questions, please contact me at (646) 660-6409.

Sincerely,

Bonnie Phillips
Director of College Counseling
