To Whom It May Concern:

This letter is being written to verify a presentation on June 19, 2008, entitled HIV & Pride given by Rick Mueller and his group of talented actors. Yearly we are called upon to address this topic and provide mandated lesson for our students. We were fortunate to have this topic addressed in an informative as well as creative way for our students. Students were also afforded the opportunity to ask questions that addressed their specific concerns.

We look forward to the possibility of a return visit by Mr. Mueller and his group. Undoubtedly, we consider ourselves fortunate to have had the opportunity last school year. I highly recommend this kind of forum for students to gain knowledge of HIV and ways in which they can inform others with the correct information. Knowledge is power and given the right information, our students will be able to make informed decisions!

Respectfully submitted,

Beverly J. Faison  
Principal
