To Whom It May Concern:

Yesterday our school was fortunate enough to experience the "HIV and Pride" presentation conducted by Rick Mueller and his troupe of actors. Rick is very open and honest with the students, sharing his life story and answering students' difficult questions. He and his team did two presentations back to back: one for the 9th Grade and one for the 10th Grade. Both of the plays that the actors performed captured the students' attention and dealt with very important issues.

The feedback I have received from my students and staff has been extremely positive. Many students said that they will now think more carefully about the choices they make. The presentation definitely made a meaningful impact and I would highly recommend "HIV and Pride" to any school or organization that works with teens.

Sincerely,

A handwritten signature in cursive script, appearing to read 'Ilona Williamson', written in black ink.

Ilona Williamson,
Guidance Counselor
